

MARIA BAGHDASARYAN Z ARMENII

Hello, I'm Maria from Armenia. My volunteer work in Poland had a positive impact on my life and left a very large impact on me.

First of all, I can say that I recognized my abilities, discover new, magic, adventure land and culture. My friends

are the most important achievement. I spent in Poland the most adventurous, humorous, and weird times and this of course thanks to my best Spanish friend who is like a sister for me – Laura. I can say that my volunteer work gave me new goals.

Wolontariuszka w Zespole Szkół im. Nikodema Sulika w Dąbrowie Białostockiej

CD...

I learned to live with a person who is culturally very different from me, I learned to understand the people who have no ideological kinship with me.

I have a very funny and nice stories to tell for the rest of my life. I can only add that if you do not have at least one friend who, after volunteering will be your friend for a lifetime, then your work is not succeed.

I am very happy to have not just one but several reliable, honest and hospitable friends, who became important part of my life.

I wish all the volunteers to have a a lot crazy adventures ... like I had during my volunteer work.
