

# European Voluntary Service/ European Solidarity Corps in Poland 2019-2020

***ANAWOJ ASSOCIATION FOR INTERNATIONAL AND INTERCULTURAL EXCHANGE is looking for 2 volunteers for our project in Grodek/ Poland***

Hosting place: PRIMARY SCHOOL in Grodek  
2017-1-PL01-KA110-038257

**from 01.10.2019 to 30.06.2020**

## **Description of the project:**

Within this project we would like to create a creative space for learning for kids and youth in a primary school center in a rural region to help them to become responsible citizens, respectful of the environment and respected by all. We also want to promote the co-operation between formal and non-formal education to make a bigger impact in personal development.

### **TASKS OF THE VOLUNTEERS:**

1. Support in the school club (care centre after formal lessons) by preparation and organizing of sport activities and workshops for kids
2. Assistance in preparation of school feasts and local ceremonies.
3. Organization of language workshops, non-formal meetings and games about their countries, cultures and traditions.

4. Creation of own activities (in field of sport, music, theatre, multimedia, literature, languages ...)
5. Animation of different non-formal activities inside and outside of the school (in co-operation with other local institutions)

### **Local environment:**

Gródek is located in the North – East part of Poland, in the eastern part of the district of Białystok. By the municipality runs the road E-65, connecting Białystok and Minsk through the border crossing at Bobrownikach. The municipality of Grodek has around 5800 inhabitants. The unique ecological placement is the fact that the whole area of the municipality is located in a Polish Green Lungs and the western part of the municipality is located within the Knyszyn Forest Landscape Park. Clean air and water, the abundance of different species of plants, birds and animals is unique in Europe, which creates excellent conditions for the development of tourism and recreation.

The village has convenient public transport with Białystok. There is the Cultural Center, the music festival called Basowiszczka (festival for independent Belarussian Rock-music) takes place annually. There are various folk festivals. There is a bay called “Zarzeczany” and the sports centre. There is an indoor swimming pool 9 kilometres far from Gródek. The only drawback of the region is quite high unemployment faced by locals and the absence of perspectives for young people. One problem is also absence of space for youth, where they can spend their free time.

### **Volunteer's profile:**

- We are looking for: **2 volunteers (one from EU-countries, one from Belarus)**
- We wish to welcome motivated young people, interested in working with children and young people.
- Welcome are active volunteers with interest in sport and/ or creative hobbies (like plastic arts, handicraft, music instruments etc),
- Volunteers should be autonomous as they will live alone in a flat in a rural area.
