

Bora, 29, Turcja, 01.03.2008- 28.02.2009, PTTK, Białystok:

“Through the European Voluntary Service I am watching the world from another point of view. At the same time, I am doing an interesting project helping to document ancient buildings for a digital database. On the other hand I can take a rest from my tiring job, having more freedom in organizing my project and possibilities to travel a lot. My volunteer life here in Podlasie gives me more satisfaction, than working just for myself.”
